## South Africa wins another outstanding investment performance award

South Africa wins at World Investment Forum 2014 for outstanding performance in attracting foreign direct investment (FDI) that supports sustainable development. South Africa wins another outstanding investment performance award. The United Nations' Conference on Trade and Development (UNCTAD) has recognised the achievements SA has made in attracting foreign direct investment (FDI). During the grand opening of the UNCTAD World Investment Forum held in Geneva, 31 projects from 29 agencies were shortlisted.

Indonsa, meaning "morning star" in isiZulu, is one of the projects assisted by Trade and Investment South Africa (TISA), a division of **the dti**, which was nominated in this category. It is the state-of-the-art dry foods production plant outside Durban producing Aromat, Knorr, Knorrox, Rajah and Robertson's brands and as Minister Davies pointed out is a global first for the group (Unilever) in terms of advancing its focus on advanced sustainable green technology. Successes such as this is a pace setter for other players in the private sector.

South Africa congratulates Unilever's chairperson, Marijn van Tiggelen on setting new global standards in responsible and sustainable dry food production through advanced technology and corporate commitment.

## CONSERVATIONIST DREAM IN THE HEART OF THE CERES KAROO

**This 6755 hectares of undeveloped and unspoiled nature in the Cederberg is approximately 80 km from Ceres. The second longest canyon in South Africa, the Riet River Canyon, and the well-known Zoo Ridge, with its strange and inspiring rock formations, are situated on the property. A great concentration and large variety of fine rock art, caves, fynbos and endangered Renosterveld are just a few of the many exceptional attractions. Leopards and endemic birds like the Verreaux Eagle contribute to the uniqueness of this pristine piece of nature. The property is ideal for an upmarket retreat or a camp style retreat for nature lovers. R9 900 000.00 neg. (£560 000) (€700 000).**

## South Africa - Cameroon

**SA firms will work on \$2.2bn photovoltaic park in Cameroon - Local company GSC Energy will start work on a 500MW solar photovoltaic park costing about \$2.2bn in Cameroon in the second half of this year. GSC Energy heads a consortium that includes Austria's Sun Value, and two other South African firms, Tricom Structures and Conco, a subsidiary of the JSE-listed Consolidated Infrastructure Group. The project would create 3,000-4,000 direct and indirect jobs in SA and Cameroon. Some of the materials would be sourced from China and some from SA. It is expected that about 20%-30% of the content of this project to come from SA. Renewable energy projects around Africa have been gaining momentum in the past few years, partly because they attract more developmental financing than coal-fired energy projects as Coal-fired power contributes to global warming. Cameroon, with a population of about 20-million, remains largely without electricity in rural areas. Its government has a Power Sector Development Plan to 2030, which aims to boost total access to electricity to 75% from about 57%.**
